WARRANTY GUIDELINES

All products supplied to the waterpark industry are guaranteed to be free of manufacturer's defects at the time of delivery. These products are designed to be used in professional waterpark/amusement facilities and under proper supervision. Not intended for private use.
Legitimate manufacturer's defects are: improperly sealed seams, improperly manufactured valves, and handles falling off due to improper sealing. Other defects such as pinholes, handles and valves ripped off, cuts and abrasion, and all normal wear and tear are not manufacturer's defects.
